## ELECTRICAL SURGE PROTECTION

Allamakee-Clayton Electric Cooperative has selected HomeServe as the trusted provider of surge damage protection programs in your area. HomeServe's authorized, locally-based network of contractors will promptly repair your covered electrical products in the event of a surge, with up to \$3,000 annually with multiple service calls (a 30-day waiting period includes a money-back guarantee) for covered repairs. Covered appliances, electronics, and electrical devices are protected, no matter how old they are.

While surge damage protection is not required, you can now protect yourself against potentially sudden and significant out-of-pocket expenses. For the low cost of only \$4.99 per month, you can avoid the costs of potentially hundreds of dollars if your electrical products need repair, plus enjoy greater peace of mind as a homeowner. Complete the form you received in the mail, or contact HomeServe at 833-334-1874.

If you are a contractor and want HomeServe to list your business on their contractor list, contact HomeServe at 833-334-1874 or the Co-op at 888-788-1551.

HomeServe® knows the importance of stretching a dollar. So, they are dedicated to providing you with affordable ways to save money when an unexpected home emergency happens.

### LINWORKER APPRECIATION DAY IS APRIL 11<sup>TH</sup>

Lineworkers go above and beyond.

These boots were made for climbing – and that's just what they'll do! Today and every day, we thank electric lineworkers for the challenging work they do!

SLOW DOWN**

**DO YOUR PART  
TO KEEP IOWA'S  
ROADS SAFE**

# DIGGING IN?

Before you dig, dial 811 or visit [www.call811.com](http://www.call811.com) to protect underground utilities. Careless digging poses a threat to people, pipelines, and underground facilities. Contact 811 first and help keep our community safe.

## We Trees, Too.

We know everyone in our community enjoys the beauty and shade trees provide. But trees and power lines can be a dangerous mix without regular trimming during the growing season.

**If you see us out in the community trimming, remember the many benefits it brings:**

- Keeps power lines clear of tree limbs
- Helps us restore power outages more quickly
- Keeps crews and members of our community safe
- Reduces unexpected costs for repairs

**Trimming improves service reliability for you, the members we serve.**
