ENERGY EFFICIENCY TIP OF THE MONTH

Take advantage of the warmer weather to reduce home energy use. Avoid using your oven and use a grill instead. Not only will cooking outdoors eliminate the energy used to power the oven or stove, but it will also avoid raising the temperature inside your home, reducing the need for additional air conditioning.

You can also avoid using the oven with tasty no-bake recipes. Get creative in the kitchen and explore new ways to save energy!

TIPS TO AVOID ENERGY SCAMS

Some scammers will pose as utility workers or contractors affiliated with your electric utility by knocking on your door and claiming to be employed or hired by the utility company. They may claim they were hired to reset, repair, replace or inspect your electric meter or other utility-related device. If a utility employee or authorized contractor needs access to your home, we will schedule an appointment in advance, and proper identification will be provided for your review.

ANNUAL MEETING

SAVE THE DATE!
MONDAY, SEPT. 8
ACEC HEADQUARTERS

Have you made a RECare pledge?

Have you heard of ACEC RECare? It's a consumer contribution fund where members can assist other members who need help paying their utility bills. Every dollar contributed to this fund is used to help low-income ACEC members pay their electric bills.

Making a contribution is easy. If you'd like to assist, **please complete the authorization form below** or the form inserted with your bill. The amount you choose to contribute will be automatically added to your monthly electric bill. If you prefer, you can make a one-time or periodic contribution.

Please note, if you have previously made a monthly pledge to RECare, you do not need to apply again.

Your contribution is greatly appreciated. If you have any questions, please call our office at 888-788-1551.

Beat the Heat **STAY SAFE** **ON THE JOB**

When working outdoors, drink water every 15 minutes, even if you're not thirsty, to help prevent heat exhaustion.
